UNCOMPRESSED PAYLOAD	UNAVAILABLE bytes · UNAVAILABLE GiB
PEAK UPLOADER RSS	UNAVAILABLE — not independently measured

VERIFICATION EVIDENCE

What was verified

FIELD	VALUE
Machine receipt status	complete
Run ID	20260816T171544Z-70007
Upload completed	2026-08-16T17:21:50Z
Standard verification	passed
Full download read-back	passed
Completion marker published last	observed
Public marker HTTP status	200 OK

Limits of this receipt

Peak uploader runtime memory and the network route used by the operator were not independently recorded; they are not inferred from byte totals and are marked unavailable above.

This receipt documents the deposit, not a claim about downstream consumer behavior beyond the pilot checks recorded by the upload engine.

Release profile

FIELD	VALUE

PRESENTATION AND PROVENANCE

House style and color validation

This receipt persists document_type: archive-invoice and style: randoma11y-accent from the Devastation Pacific Summer 2026 version 3.9 registries. Body fields remain predominantly neutral; the two-color RandomA11y pair is used only for accents, rules, labels, and selected panels.

ENDPOINT PAIR

dark #581c87 · light #faf5ff

WCAG 2.x relative-luminance contrast between the endpoints: 10.135:1.

VALIDATION RECORD

Every foreground/background combination actually used was computed with the WCAG 2.x relative-luminance formula and recorded in the metadata sidecar. Normal-size text passed at least 4.5:1; large text and essential rules passed at least 3:1.
