Shared Sea Atlas

E1 · Exhibition · Awashima / a maritime history setting · Autumn 2028

A wall of paired maps connects the Seto Inland Sea to the larger systems that pass through it. Each world map has a Japan companion. Visitors move between the two scales, then leave a question on a paper table.

Why here

Awashima’s shipping history gives the work a local starting point. The Maritime Memorial Hall or another agreed indoor room is a candidate, not a booked venue. The work asks residents which routes and materials deserve attention.

Proposed work. Site, partners and production budget remain subject to review.

The visitor experience

Shared Sea Atlas

1. Start with Earth and Water. Find Japan without placing it at the centre of the world.

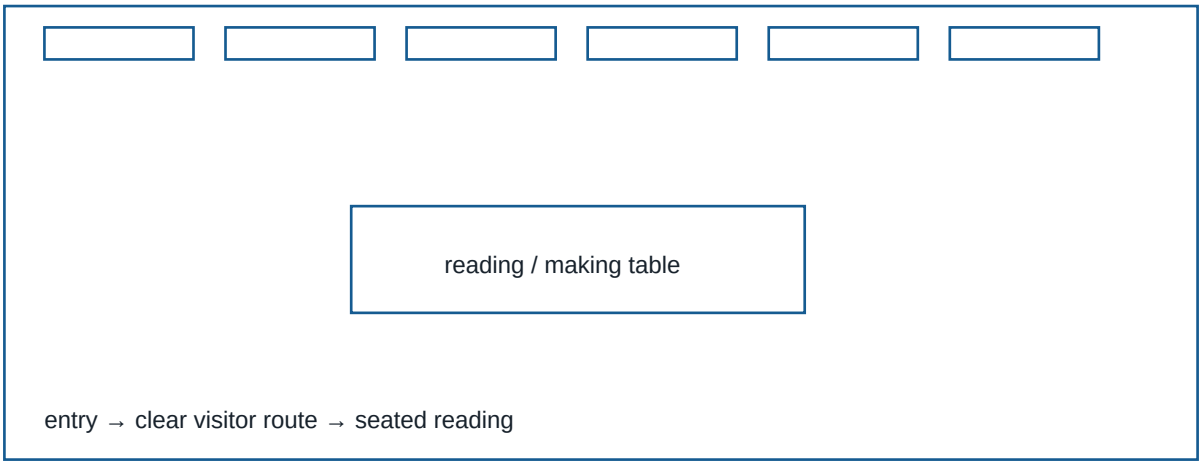

2. Compare six world/Japan pairs: land, water, cables, atmosphere, refinery throughput and temperature.

3. At a seated table, add an anonymous question or draw a route that matters to island life. Visitors may take their contribution home.

Space and materials

One indoor room, approximately 6 × 8 m; at least 8 m of usable wall; six paired panels and one 1.8 × 0.8 m table.

Twelve pigment prints, each 1,117.6 × 483.9 mm; reusable hanging rails; printed Japanese/English labels; paper and pencils. No network connection is needed.

Concept layout only. Dimensions and circulation must be checked in the chosen room; this is not a measured site plan.

Works and production estimate

Shared Sea Atlas

Works are selected from the regenerated atlas. Each has a world master and a Japan companion. Study prints use smaller sheets; all masters remain available at full print size.

earth

network-fiber
cloud-atmosphere
resources-energy-petrochemical-refinery-throughput-latest-2024
anthropocene-temperature-2026

Planning allowance	JPY
Printing and mounting	420,000
Reusable display and table	220,000
Artist preparation and local co-design	450,000
Translation and accessible labels	180,000
Packing, freight and local travel	210,000
Installation and removal labour	180,000
Travel and accommodation allowance	180,000
Contingency	210,000
Total	2,050,000

These are planning allowances, not supplier quotations. They include the stated travel/access items and contingency. No subsidy or host contribution is committed. Any tax, fee or site requirement absent from a supplier quote must fit within the total or trigger revision.

Making the work

Shared Sea Atlas

Stage	Proposed timing
Confirm host, room and local questions	After selection; early 2027
Co-design and physical sample	Mid to late 2027
Confirm permissions, costs and access	At least 12 weeks before opening
Refresh labels and produce final prints	6–8 weeks before opening
Install, test and hand over care guide	Before the chosen 2028 season
Remove, return and archive by agreement	After the season

Human review before production

Confirm the room, wall loads, clear routes and host capacity. Ask island partners to select the local questions and agree how contributions will be kept or returned.
