The Port Reading Table

I1 · Site installation · Uno / an agreed indoor waiting or community space · Any 2028 season

A durable table holds a sequence of world and Japan map sheets. A traveller can read one sheet in a minute or stay with the whole atlas. The table operates without a screen or network.

Why here

The format meets the variable time of a port visit. It must sit in a host-controlled room with free circulation, not in a boarding queue or an emergency route.

Proposed work. Site, partners and production budget remain subject to review.

The visitor experience

The Port Reading Table

1. Choose a tab: water, cables, energy or heat.

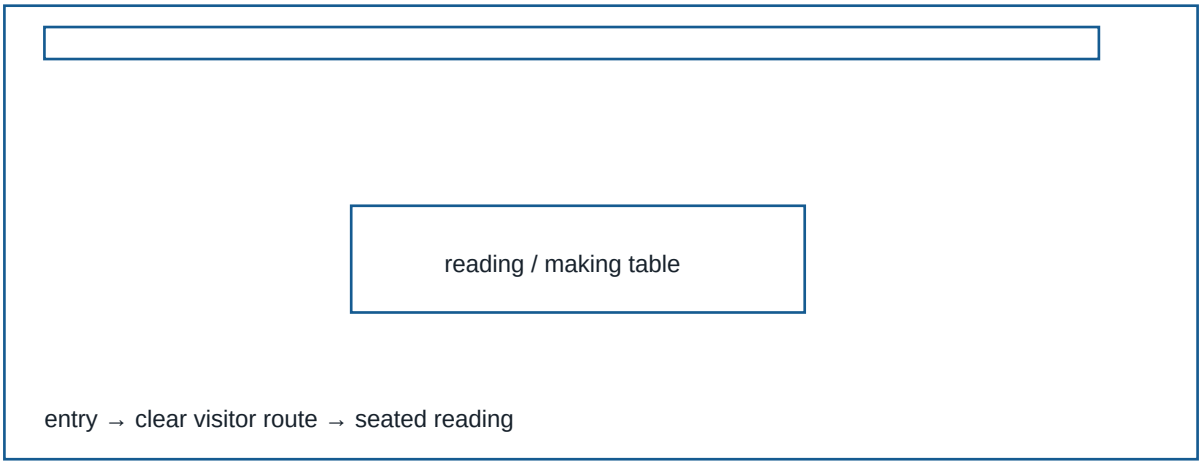

2. Turn a world sheet to its Japan companion.

3. Read the date and one clear limitation; take a small printed guide if wanted.

Space and materials

About 3 × 3 m including circulation; one 1.8 × 0.8 m table with seated reach and knee clearance; eight A2 study sheets.

Reusable timber or metal table, replaceable protected paper sheets, tabbed bindings and printed guide. Full print masters supply the source artwork.

Concept layout only. Dimensions and circulation must be checked in the chosen room; this is not a measured site plan.

Works and production estimate

The Port Reading Table

Works are selected from the regenerated atlas. Each has a world master and a Japan companion. Study prints use smaller sheets; all masters remain available at full print size.

petroleum-eia-liquids-2025
anthropocene-temperature-2026

Planning allowance	JPY
Table fabrication	320,000
Prints and replaceable covers	180,000
Artist preparation	220,000
Host consultation and access review	100,000
Translation	90,000
Freight, install and removal	160,000
Contingency	130,000
Total	1,200,000

These are planning allowances, not supplier quotations. They include the stated travel/access items and contingency. No subsidy or host contribution is committed. Any tax, fee or site requirement absent from a supplier quote must fit within the total or trigger revision.

Making the work

The Port Reading Table

Stage	Proposed timing
Confirm host, room and local questions	After selection; early 2027
Co-design and physical sample	Mid to late 2027
Confirm permissions, costs and access	At least 12 weeks before opening
Refresh labels and produce final prints	6–8 weeks before opening
Install, test and hand over care guide	Before the chosen 2028 season
Remove, return and archive by agreement	After the season

Human review before production

Confirm dimensions with access users and host staff; approve cleaning, sheet replacement and storage. Test glare and reading distance on a physical sample.
