Fold a World, Read an Island

V1 · Event · Shido or Takamatsu / an accessible workshop room · Spring 2028

Participants cut, fold and annotate a paper world map. A world/Japan comparison becomes a practical lesson in how a map changes attention. Each person chooses whether to keep or share their sheet.

Why here

The supplied conference ideas include a rip, burn, fold workshop. This proposal develops the paper-folding part into a low-equipment public session; it uses no burning.

Proposed work. Site, partners and production budget remain subject to review.

The visitor experience

Fold a World, Read an Island

1. A ten-minute demonstration compares globe, flat map and Japan detail.

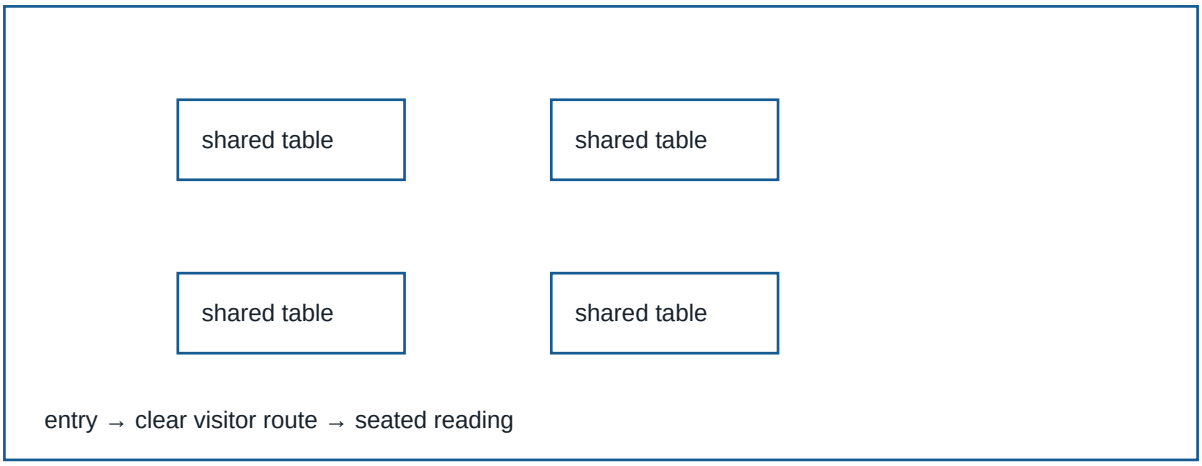

2. In pairs, fold an A3 study sheet and mark a route, material or question.

3. A closing table conversation lets participants explain their choices; no personal location data is collected.

Space and materials

Two 90-minute sessions, up to 20 people each; a 6 × 6 m accessible room; five worktables and a seated demonstration.

A3 study prints, blunt scissors, pencils, reusable templates and large-print instructions. Full-size masters remain available as wall references.

Concept layout only. Dimensions and circulation must be checked in the chosen room; this is not a measured site plan.

Works and production estimate

Fold a World, Read an Island

Works are selected from the regenerated atlas. Each has a world master and a Japan companion. Study prints use smaller sheets; all masters remain available at full print size.
