What Does the Cloud Touch?

V2 · Event · Takamatsu / a public conversation room · Any 2028 season

A moderated conversation connects digital networks to cables, ports, energy and everyday work. Three map pairs anchor the discussion. The audience leaves with a short source guide.

Why here

The conference memo names cloud/network and media themes. Nicole Starosielski, Jennifer Holt, Lisa Nakamura and Eric Rodenbeck are possible invitation leads, not confirmed contributors.

Proposed work. Site, partners and production budget remain subject to review.

The visitor experience

What Does the Cloud Touch?

1. A short map reading establishes what the sources measure.

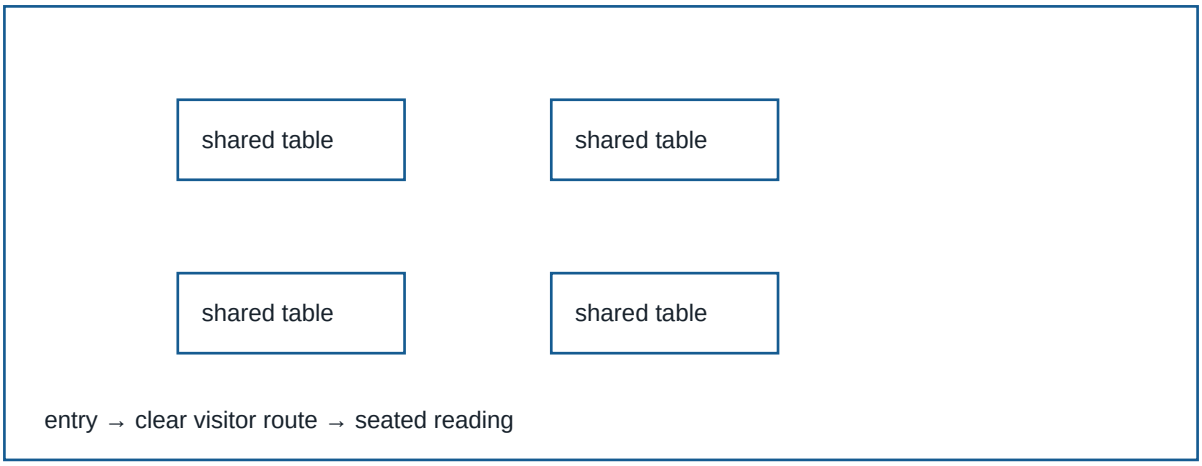

2. Two invited contributors and a local respondent discuss one concrete route or material dependency.

3. Audience questions are followed by a facilitated source-table conversation, with an option to contribute in writing.

Space and materials

One 90-minute conversation for about 50 visitors; accessible indoor seating; three paired maps and a source table.

Six reference prints, microphones if the room requires them, bilingual handout and live interpretation allowance. No recording is assumed.

Concept layout only. Dimensions and circulation must be checked in the chosen room; this is not a measured site plan.

Works and production estimate

What Does the Cloud Touch?

Works are selected from the regenerated atlas. Each has a world master and a Japan companion. Study prints use smaller sheets; all masters remain available at full print size.

petroleum-eia-liquids-2025

Planning allowance	JPY
Speaker and moderator fees	240,000
Local respondent and preparation	80,000
Interpretation and access	180,000
Room and technical allowance	70,000
Printing	40,000
Travel allowance	90,000
Contingency	80,000
Total	780,000

These are planning allowances, not supplier quotations. They include the stated travel/access items and contingency. No subsidy or host contribution is committed. Any tax, fee or site requirement absent from a supplier quote must fit within the total or trigger revision.

Making the work

What Does the Cloud Touch?

Stage	Proposed timing
Confirm host, room and local questions	After selection; early 2027
Co-design and physical sample	Mid to late 2027
Confirm permissions, costs and access	At least 12 weeks before opening
Refresh labels and produce final prints	6–8 weeks before opening
Install, test and hand over care guide	Before the chosen 2028 season
Remove, return and archive by agreement	After the season

Human review before production

Secure contributors, define a topic with the local respondent, and confirm interpretation. International travel beyond the allowance would require a revised budget or remote participation.
