An Island Seen from Two Scales

V3 · Event · Megijima / a host-selected accessible route · Spring or autumn 2028

A short guided walk alternates between looking at the island and reading maps. Participants record observations in words or sketches. The activity ends at a seated table so walking is optional.

Why here

Megijima’s shore, wind walls and settlement offer places to discuss what a global map leaves out. A resident host selects the route and the subjects; this is not a survey of residents.

Proposed work. Site, partners and production budget remain subject to review.

The visitor experience

An Island Seen from Two Scales

1. Meet indoors and choose a walking or seated version.

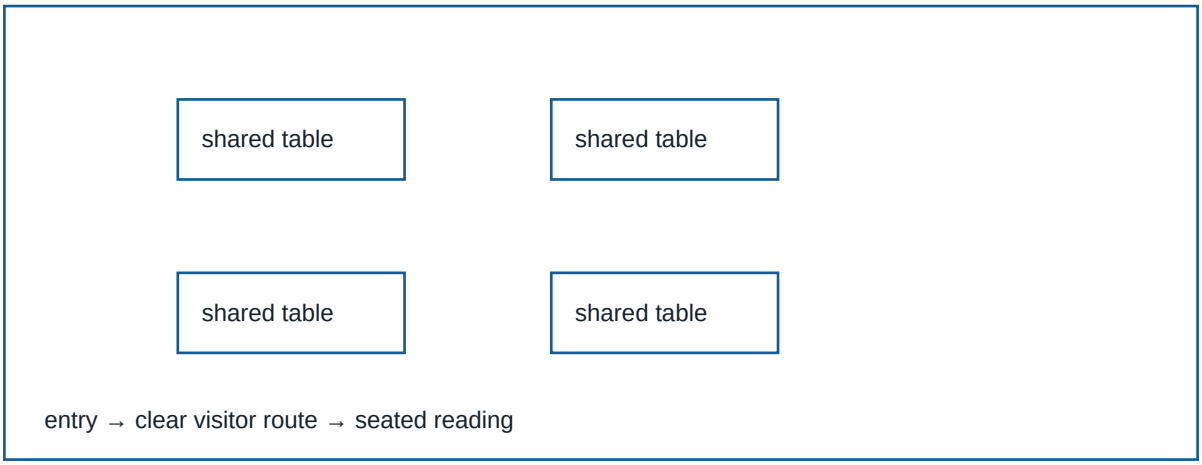

2. Visit three agreed stopping places over 45 minutes. Compare observed surroundings with dated map layers.

3. Return for a 30-minute table discussion. Keep sketches with their makers unless they explicitly choose to contribute them.

Space and materials

Two sessions of up to 12 people; route under 1 km if approved; an indoor alternative for weather or access.

A4 study sheets, clipboards, pencils and a large seated map. No tracking app, drone or collection of identifiable location histories.

Concept layout only. Dimensions and circulation must be checked in the chosen room; this is not a measured site plan.

Works and production estimate

An Island Seen from Two Scales

Works are selected from the regenerated atlas. Each has a world master and a Japan companion. Study prints use smaller sheets; all masters remain available at full print size.

earth
water
cloud-atmosphere

Planning allowance	JPY
Resident guide and planning	100,000
Facilitation	80,000
Translation and access	60,000
Printing and materials	30,000
Local transport and room allowance	40,000
Contingency	40,000
Total	350,000

These are planning allowances, not supplier quotations. They include the stated travel/access items and contingency. No subsidy or host contribution is committed. Any tax, fee or site requirement absent from a supplier quote must fit within the total or trigger revision.

Making the work

An Island Seen from Two Scales

Stage	Proposed timing
Confirm host, room and local questions	After selection; early 2027
Co-design and physical sample	Mid to late 2027
Confirm permissions, costs and access	At least 12 weeks before opening
Refresh labels and produce final prints	6–8 weeks before opening
Install, test and hand over care guide	Before the chosen 2028 season
Remove, return and archive by agreement	After the season

Human review before production

Walk the route with the host; confirm step-free alternatives, tide/weather decisions and a cancellation contact. Keep visitor routes clear of working areas.
